Department of Information Technology

Project Description

Team Name	Elysian Drift
Team Members with Register Number and Student Name	SHIYAM PURUSHOTHAMAN (231001193) SUDARSUN P (231001218)
Domain	HEALTHCARE
Tentative Project Title	ALTHEA
Existing System Overview	Current systems are vulnerable to prescription forgery due to centralized storage, with fragmented medical records and limited healthcare access—especially in rural areas—leading to delayed diagnosis and treatment and increased risks to patient safety.
Pitfalls of Existing System	Current systems face prescription forgery risks and fragmented medical records due to centralized storage. Limited healthcare access, especially in rural areas, leads to delayed diagnosis and treatment, increasing inefficiencies and patient safety concerns.
Proposed Idea / Solution	The proposed system introduces a Flutter-based mobile application integrated with an AI health chatbot powered by the Gemini API. Patients receive health guidance, book appointments, and consult doctors digitally for faster and reliable healthcare access.
